

## CROPS PLANTED AT EMERSON GARDENS

- crops to be planted in Spring (warm season crop)
- ✓ crops to be planted in Fall (cool season crop)

The origins of agriculture Centers of domestication developed independently in different parts of the world. The domestication of animals began earlier than that of plants. The selection of annual species, such as grain-bearing grasses, squashes, peas and beans, meant that breeding could proceed quite quickly, bringing rapid improvements in crop varieties.
